decision in order to enable placement and field training of students. It was stated that it is more appropriate to place students in sectors according to their knowledge and skill areas.

Furthermore, it was concluded that the decision to extend the duration of the "In-Business Vocational Training (IBT)" program for students in the Spring semester of the 4th year was a sound one.

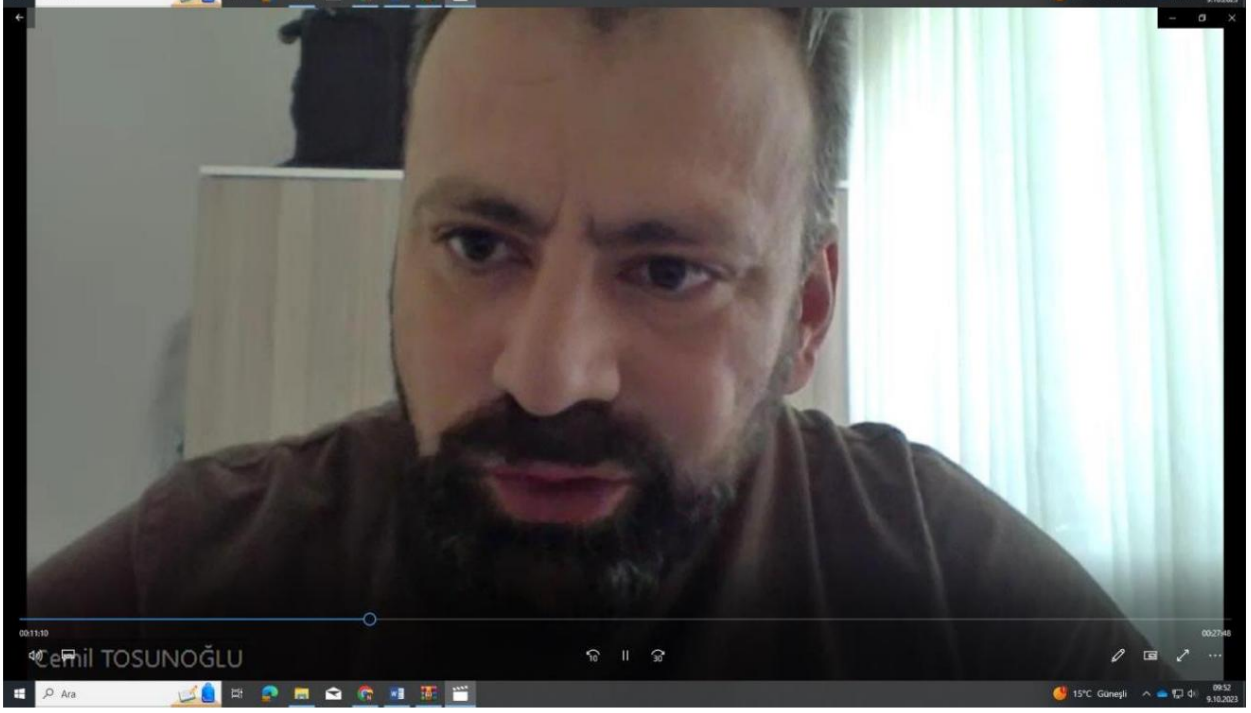

3- We were informed that there are new regulations under SHY-147, a well-known school, and that these regulations make it difficult to open our other two departments. Therefore, we suggested that a revision might be made following discussions with the university's senior management.

4- The meeting was concluded by Associate Professor Dr. Yasin ÿÖHRET, the Deputy Director of our College and a member of our College's
Unit Advisory Board, who thanked all participants for their attendance.
