SCOPE

1. Our Vocational School in the Accreditation Process within the Scope of Quality of Our University Evaluation and Identification of Deficiencies

-Due to our university's entry into the accreditation process within the scope of quality, the information and documents on our college's website have been reviewed and evaluated, and we have been informed to complete any missing information.
-The course information packages were reviewed and evaluated.
-Necessary discussions should be held with institutes regarding postgraduate education;
-It was stated that if trainer training programs are being conducted, reports should be prepared on these programs, what certifications have been obtained, and if trainer training programs are being received from external companies, the necessary documentation should be provided, and if these certifications have not been obtained, efforts should be made to obtain them.
-It was suggested that the improvements on our college's website be updated.
-It is crucial for quality assurance that recent graduates undergo surveys, and therefore, graduating students should be informed about this matter;

-It was suggested that efforts be initiated for our college to apply for the Orange Flag award.
