They also mentioned that guidelines for sector training have been prepared and preliminary meetings have been held with "Pegasus" and "IGA" organizations for this purpose.

Within this context, our Aviation Management department students, who are actively receiving education, are currently in their 3rd year and the main agenda item of our meeting is that the curriculum includes "Industry Applications" courses in the 8th semester, which is the spring semester of the 4th year.

Although this does not pose a problem for our University, it creates certain responsibilities from a sectoral perspective, and advice and opinions on this matter have been requested.

-Our Advisory Board members Mehmet Ali GENÇ and Cengiz Mesut BÜKEÇ emphasized that there is a previous study conducted by Cappadocia University on this subject, and that discussions could be held with the university. It was stated that companies or organizations do not want to pay students for internships, and considering both students and companies, a "Win-Win Model" could be implemented under the name "Internship and Employment Agreement," where mutual agreements or protocols could be signed, and for students, IGA (Istanbul Grand Airport)...
