UNIT QUALITY ACTIVITIES MEETING

MEETING DATE: 25.05.2022

AGENDA :

1 - Opening Speech.

Our College Director, Dr. Assoc. Prof. Ahmet SONGUR began his speech by stating that the meeting would focus on evaluating the preparation and implementation of the necessary textbooks for the Aircraft Fuselage Engine Maintenance Department and the Aviation Electrical and Electronics Department, which are required for SHY 147 recognized school studies, as well as providing information about the transformation of our college into a faculty and the hangar project.

We were informed that a proposal has been made to transform our school into a faculty, and that the necessary steps have been taken for the hangar project required for our school.

As a result of the meeting, the opinions of all participating faculty members were taken into consideration, and in line with these opinions;

Decision-1: Opinions were sought regarding whether the content of the books to be used in the courses should be expanded. The General Directorate of Civil Aviation was involved in the preparation of these books. In accordance with the UED-2015/3 circular, it has been decided that the content of the course curriculum does not need to be significantly expanded; Those instructors who wish to expand the content should prepare additional textbooks, and priority should be given to preparing textbooks at a minimum level.

Decision-2: It has been decided that YETEM's resources can be utilized in the courses to be conducted within the scope of the materials and equipment module, and that a protocol will be signed with YETEM to enable the necessary applications to be carried out during the courses.
